

THYMOX[®] MULTISURFACE

is a ready-to-use disinfectant and cleaner made with thymol, a botanically derived active ingredient that leaves a herbal scent.

KILLS 99.99% OF GERMS

VIRUSES: Kills SARS-CoV-2, HIV-1, Influenza A, H1N1, RSV

BACTERIA: Kills *Staph.*, *Salmonella*, *Pseudomonas*, VRE, *Listeria*, *E. coli*, *Streptococcus*, MRSA, *Klebsiella pneumoniae*

FUNGI, MOLDS AND TUBERCULOSIS: Kills Athlete's Foot Fungus, *Candida*, *M. bovis* BCG (TB)

Kills Norovirus

ACTIVE INGREDIENT

Thymol 0.23%

PRODUCT PROPERTIES

Appearance: Clear to translucent liquid **pH:** 4-6 **Odor:** Thyme/Spicy

Melting Point/Freezing point: 32°F (0°C) / 24.8°F (-4°C)

Flammability: Non flammable

Other information: Does not sustain combustion

Shipping Information: Not regulated as a dangerous good

MATERIALS COMPATIBILITY

Trash cans, floors, appliance exteriors, door handles, toilet seats, walls, windows, tables, doors, metal, glazed porcelain, steel, stainless steel, brass, aluminium, sealed concrete, plastic, polypropylene, polystyrene, polyethylene, PVC.

* Always refer to label directions.

TECHNICAL SHEET

DIRECTIONS FOR USE

GENERAL USE – ANY TYPES OF HARD SURFACES

TO DISINFECT: For use on hard nonporous surfaces. Spray to thoroughly wet the surface to be disinfected. Spot test to check compatibility with the surface. Surfaces must remain wet for 1 minute to kill viruses*, 2 minutes to kill bacteria, 3 minutes to kill fungi and *M. bovis* BCG (TB), and to disinfect *Norovirus, let stand for 4 minutes. Allow to air dry. If desired, wipe dry. Food must be removed or carefully protected prior to using this product.

TO SANITIZE: Spray to thoroughly wet the surface to be sanitized. Food must be removed or carefully protected prior to using this product.

Hard nonporous surfaces must remain wet for 30 seconds.

Soft surfaces (fabrics) must remain wet for 2 minutes.

Precleaned food-contact surfaces must remain wet for 60 seconds.

TO CLEAN, DEODORIZE & REMOVE

ALLERGENS: Spray the product on surface and wipe clean. To remove heavy soil let stand a few minutes and wipe clean. For soft surfaces; spray to wet surface and wipe or blot to clean. This product removes the most common allergens.

TO CLEAN VIA FOGGING: This product can be applied effectively with a ULV fogger as a supplement to normal cleaning procedures on restoration and remediation projects in confined, vacant areas of schools, healthcare facilities, and in HVAC systems as well other vacant, indoor areas Note: These use directions are for cleaning only.

TOXICITY CATEGORY TABLE

PRODUCT ACTIVE	TOXICITY CATEGORY
THYMOX	IV
Accelerated Hydrogen Peroxide	III or IV
Bleach	I
Quaternary Ammonium Compounds	II or III
